

LaunchPad LifeScience Companies

<b>Company</b>	<b>Description</b>
<b>Atlas Spine</b>	<p>Designs, manufactures and distributes cervical and lumbar surgical products focusing on advancing innovative spine technologies through collaborative excellence.</p> <p>CEO: Doug Watson            Email: <a href="mailto:dwatson@atlasspine.com">dwatson@atlasspine.com</a>            Phone: (949) 525-0400            Website: <a href="http://atlasspine.com/">http://atlasspine.com/</a></p>
<b>Blast Resolve</b>	<p>Blast Resolve has developed a unique and world-leading technology for the rapid detection of strokes and traumatic brain injury based on connected health and neuroimaging devices.</p> <p>CEO: Stuart Stein            Email: <a href="mailto:Sstein119@cox.net">Sstein119@cox.net</a>            Phone: (520) 260-8030</p>
<b>Breathe Technologies</b>	<p>Breathe Technologies seeks to significantly improve the lives of people with respiratory needs by providing innovative therapies that improve quality of life.</p> <p>CEO: Larry Mastrovich            Email: <a href="mailto:larrym@breathetechnologies.com">larrym@breathetechnologies.com</a>            Phone: 925.359.1505            Website: <a href="http://www.breathetechnologies.com">http://www.breathetechnologies.com</a></p>
<b>Brighter Health</b>	<p>Fundamentally altered endotracheal intubations.</p> <p>CEO: Manu Singh            Email: <a href="mailto:manu@brighterhealth.org">manu@brighterhealth.org</a>            Phone: (301) 526-2900</p>
<b>Challenging Solutions</b>	<p>Empowering people with mobility impairments through Wiigo, a revolutionary enabling device</p> <p>CEO: Ernesto Diaz-Flores            Email: <a href="mailto:ernesto.diaz.flores@gmail.com">ernesto.diaz.flores@gmail.com</a>            Phone: (415) 297-8667            Website: <a href="http://challengingsolutions.com">http://challengingsolutions.com</a></p>

<p><b>CellMedics</b></p>	<p>An Advanced Pain Relief cream with Deep Tissue Delivery System. It is a patented transdermal vehicle cream that significantly enhances drug penetration through the skin and drug bioavailability in target tissue. It has been shown to be a safer &amp; more effective drug delivery method than oral dosing by pills</p> <p>CEO: Scott Shapiro          Email: <a href="mailto:shapiro7@cox.net">shapiro7@cox.net</a>          Phone: Office: 702.256.8211 / Mobile: 702.630.4301          Website: <a href="http://www.cellmedics.net">http://www.cellmedics.net</a></p>
<p><b>Clearflow</b></p>	<p>Prevents medical tube occlusion in patients recovering after surgery. This system provides for chest drain catheter patency after cardiothoracic operations and is intended to prevent the many complications of retained blood left behind in the thorax after surgery.</p> <p>CEO: Paul Molloy          Email: <a href="mailto:pmolloy@clearflow.com">pmolloy@clearflow.com</a>          Phone: 949-463-6996          Website: <a href="http://www.clearflow.com">www.clearflow.com</a></p>
<p><b>CNS Response</b></p>	<p>CNS Response is a neuroscience company focused on improving the quality of treatment for patients with brain disorders, by providing objective information to prescribers.</p> <p>CEO: George Carpenter          Email: <a href="mailto:gcarpenter@cnsresponse.com">gcarpenter@cnsresponse.com</a>          Phone: 949.420.4401          Website: <a href="http://www.cnsresponse.com">http://www.cnsresponse.com</a></p>
<p><b>Coagulation Science</b></p>	<p>Developed transformative technology and products for transfusion management during large-scale surgeries. The Company's proprietary automated device performs a panel of 'theranostic' tests on the patient's blood and rapidly deliver actionable, evidence-based results at the point-of-care (POC)</p> <p>David Bernstien          Email: <a href="mailto:david.bernstein@cjkscurities.com">david.bernstein@cjkscurities.com</a>          Phone: 949.439.4079</p>

<p><b>Cold Genesys</b></p>	<p>Cold Genesys is a clinical-stage company focusing on the development of oncolytic viruses and immunotherapies for Blatter cancer.</p> <p>CEO: Paul DeRidder          Email: paul@paulderiddermd.com          Phone: 714.345.5887          Website: <a href="http://coldgenesys.com">http://coldgenesys.com</a></p>
<p><b>Convoy Therapeutics</b></p>	<p>Enhancing the penetration and retention of a range of therapeutic and cosmetic compounds, creating new markets or a paradigm shift in treatment protocols. In a passive process, our SPACE™ peptides partition the keratin that makes up the outer layer of human skin, allowing penetration of molecules to the lower levels of the skin while maintaining the skin's integrity.</p> <p>VP: Ann Deren-Lewis          Email: derenlewis@convoytx.com          Phone: 520.300.8520</p>
<p><b>Deton Corp</b></p>	<p>The Cough Collector: a novel and effective sample collection device for lower respiratory infections</p> <p>CEO: Patrick Sislian, Ph.D.          Email: psislian@detoncorp.com          Phone: 310-869-9772          Website: <a href="http://detoncorp.com">http://detoncorp.com</a></p>
<p><b>Diagnostic BioChips</b></p>	<p>Biosensor platform technology company that has developed a cost effective solution for measurement of medically important signals. DBC's patent-pending technology represents a new breed of ligand-binding assay: deployed in living organisms, its miniaturized biosensors are multiplexed for precision monitoring of biological function at the molecular level.</p> <p>CEO: Robert S. Collins          Email: rob@diagnosticbiochips.com          Phone: 410.205.2443          Website: <a href="http://www.diagnosticbiochips.com">www.diagnosticbiochips.com</a></p>

<b>Diomics</b>	<p>An emerging biotechnology company with a patented solution for highly efficient nucleic acid capture that improves DNA detection in forensics and diagnostics.</p> <p>CEO: John Steel / J Candace Covington is POC          Email: <a href="mailto:jcandacecovington@gmail.com">jcandacecovington@gmail.com</a>          Phone: 949.933.4681          Website: <a href="http://www.diomics.com">http://www.diomics.com</a></p>
<b>Emmaus</b>	<p>The first maintenance treatment developed specifically for sickle cell disease</p> <p>CSO: Yutaka Niihara          Phone: 310-214-0065          Website: <a href="http://www.emmausmedical.com">www.emmausmedical.com</a></p>
<b>Freedom Meditech</b>	<p>Freedom Meditech focused on providing “free and healthy” alternatives to existing diagnostic tools for the detection, monitoring and management of chronic diseases such as diabetes</p> <p>CEO: John Gerace          Email: <a href="mailto:john@jdgerace.com">john@jdgerace.com</a>          Phone: (650) 787-5308          Website: <a href="http://www.freedom-meditech.com">http://www.freedom-meditech.com</a></p>
<b>Immunogenx</b>	<p>Advanced Diagnostics to Manage Celiac Disease</p> <p>CEO: Jack Syage          Email: <a href="mailto:jsyage@immunogenx.com">jsyage@immunogenx.com</a>          Phone: (714) 357-0631          Website: <a href="http://immunogenx.com">http://immunogenx.com</a></p>
<b>Innova Medical</b>	<p>Developing customized pain relief products where needle pain is greatly reduced or eliminated. Where pain is vaccines, injections, intravenous starts, blood draws, diabetes lancet and insulin injection sticks and aesthetic procedures.</p> <p>CEO: Tim O'Malley          Email: <a href="mailto:tim.omalley@innovamedicaldesign.com">tim.omalley@innovamedicaldesign.com</a>          Phone: 651-334-5680          Website: <a href="http://innovamedicaldesign.com">http://innovamedicaldesign.com</a></p>

<p><b>Insight Rx</b></p>	<p>Precision Dosing made simple, a technology platform for Dose Monitoring</p> <p>CEO: Sirj Goswami          Email: <a href="mailto:sirj.goswami@gmail.com">sirj.goswami@gmail.com</a>          Phone: (925) 413-1868          Website: <a href="http://insight-rx.com">http://insight-rx.com</a></p>
<p><b>Kaer Biotherapeutics</b></p>	<p>Instigation of new aerosol therapies for life-threatening lung diseases</p> <p>CEO: Donovan Yeates          Email: <a href="mailto:dyeates@kaerbio.com">dyeates@kaerbio.com</a>          Phone: 760 480 9400          Website: <a href="http://www.kaerbio.com">www.kaerbio.com</a></p>
<p><b>Kinemed</b></p>	<p>KineMed is creating a pipeline of high value drug assets in muscle-wasting, neurodegenerative, and fibrotic diseases. The pipeline today is focused on two Phase 2 trials in 2016, KM0280, a synthetic Ghrelin peptide to address muscle wasting in the elderly, and KM0175 in ALS patients.</p> <p>CEO: David Fineman          Email: <a href="mailto:dfineman@kinemed.com">dfineman@kinemed.com</a>          Phone: 510.655.6525</p>
<p><b>Medical Tactile</b></p>	<p>Breast tumor detection device. MTI is a privately-held medical device company founded to develop, manufacture and market advanced tactile lesion documentation system and producing a surface map of the breast as an aid to document palpable breast lesions identified during a clinical breast examination.</p> <p>CEO: Dr. Jae Son          Email: <a href="mailto:jaeson@medicaltactile.com">jaeson@medicaltactile.com</a>          Phone: (310) 641-8228          Website: <a href="http://www.suretouch.us">http://www.suretouch.us</a></p>
<p><b>Modulated Imaging</b></p>	<p>Light-based tissue imaging systems that have applications in multiple medical fields</p> <p>CEO: Richard Oberreiter          Email: <a href="mailto:roberreiter@cox.net">roberreiter@cox.net</a>          Phone: (949) 887-8396          Website: <a href="http://modulatedimaging.com">http://modulatedimaging.com</a></p>

<p><b>MoPill</b></p>	<p>MoPill has created a Gastrointestinal Motility Evaluation System (GMES). Designed around a very small, ingestible "motility pill" (aka MoPill®), the system offers radical, first-of-its-kind diagnostic capabilities as it travels through the human gastrointestinal (GI) tract to assess GI motility. The MoPill aids in the diagnosis, definition and therapeutic intervention of gastrointestinal disorders and diseases.</p> <p>VP: Don Pritchett, Ph.D.          Email: don.pritchett@1rockwest.com          Phone: 805.895.2847</p>
<p><b>Neural Analytics</b></p>	<p>Creating products and services to measure, diagnose and track brain health –current focus is on Traumatic Brain Injury (TBI).</p> <p>CEO: Leo Petrossian          Email: leo@neuralanalytics.com          Phone: 818.317.4999          Website: <a href="http://neuralanalytics.com">http://neuralanalytics.com</a></p>
<p><b>Neurolix</b></p>	<p>Neurolix is a private, clinical-stage biopharmaceutical company developing novel drug treatments for unmet medical needs in neurological disorders: Parkinson’s disease and Rett syndrome.</p> <p>CEO: Mark Varney, PhD          Email: mvarney@neurolix.com          Phone: (949) 975-9833          Website: <a href="http://www.neurolix.com/en/">http://www.neurolix.com/en/</a></p>
<p><b>Neuro Recovery</b></p>	<p>NeuroRecovery Technologies is developing innovative therapeutic systems designed to provide functional recovery for individuals suffering from paralysis.</p> <p>CEO: Nick Terrafranca          Email: nickt@neurorecoverytech.com          Phone: 949-292-9646          Website: <a href="http://www.neurorecoverytechnologies.com">www.neurorecoverytechnologies.com</a></p>

<p><b>Omnicomed</b></p>	<p>Onciomed, Inc. is a clinical stage medical device company with a novel, minimally invasive, reversible, medical implant which imitates gastric surgery without cutting and removing portion of the stomach. The Gastric Preservation device, the Gastric Vest System™ (GVS), is intended for treatment of obesity and diabetes. In addition, Onciomed is developing 510k laparoscopic devices for commercial use by 2016. Innovations in obesity and metabolic Technologies.</p> <p>CEO: Raj Nihalani Email: <a href="mailto:raj@onciomed.com">raj@onciomed.com</a> Phone: 714-658-3039 Website: <a href="http://www.onciomed.com">http://www.onciomed.com</a></p>
<p><b>Perimeter Medical Imaging</b></p>	<p>Perimeter takes the guesswork out of tumour removal surgery. In the case of breast lum-pectomy surgeries, over 25% of patients require a second surgery due to some cancer cells being left behind</p> <p>CEO: Paul Weber Email: <a href="mailto:pweber@perimetermed.com">pweber@perimetermed.com</a> Phone: 647.504.4260 Website: <a href="http://www.perimetermed.com">http://www.perimetermed.com</a></p>
<p><b>PinScriptive</b></p>	<p>Prescription Optimization for Specialty Biopharmaceuticals</p> <p>CEO: Mark Leliski Email: <a href="mailto:mark@frostdatacapital.com">mark@frostdatacapital.com</a> Phone: 512-993-4542 Website: <a href="http://pinscriptive.com">http://pinscriptive.com</a></p>
<p><b>Proa Medical</b></p>	<p>Proa Medical Proa Medical is efficiently commercializing a portfolio of innovative medical devices, focusing on quick-to-market (2-4 years) medtech ventures with concrete regulatory and reimbursement pathways. The company's first product, a patented retractor, has been commercially launched. Its second product, a patent-pending gynecologic speculum, has received 510(k) regulatory clearance from US FDA. Proa Medical is seeking funding to support business development, marketing, and product development of additional portfolio technologies.</p> <p>CEO: Sascha Hasan Email: <a href="mailto:sascha.hasan@gmail.com">sascha.hasan@gmail.com</a> Phone: o. 310.206.8611   m. 310.403.5669 Website: <a href="http://www.proamedical.com">http://www.proamedical.com</a></p>

<b>QT Medical</b>	<p>Completely new design of ECG system for babies. Most integrated, compact ECG system in the world. One-piece electrode design, quick and trouble free placement. No long cable to connect with individual electrodes—eliminating errors in matching cables and electrodes. Proven in clinical trial that people with no training can perform a 12-lead ECG with 100% accuracy.</p> <p>CEO: Ruey-Kang Chang, MD, MPH          Email: <a href="mailto:neovative@outlook.com">neovative@outlook.com</a>          Phone: (310)866-0709</p>
<b>Soft Health</b>	<p>Finess®, a novel, clinically proven device for female stress urinary incontinence, cleared by FDA for over-the-counter (OTC) sale.</p> <p>CEO: Thomas Berryman          Email: <a href="mailto:berryman@softhealthtech.com">berryman@softhealthtech.com</a>          Phone: 949-939-6267          Website: <a href="http://www.softhealthtech.com">http://www.softhealthtech.com</a></p>
<b>Spinal Singularity</b>	<p>The Connected Catheter™, will revolutionize the way more than one Million Americans deal with Neurogenic Bladder.</p> <p>CEO: Derek Herrera          Email: <a href="mailto:derek@spinalsingularity.com">derek@spinalsingularity.com</a>          Phone: 470-222-5323          Website: <a href="http://www.spinalsingularity.com">http://www.spinalsingularity.com</a></p>
<b>Spine Ovations</b>	<p>21st Century Spinal Care Treatment Will be Minimally Invasive SpineOvations will lead the way. DiscSeal. An innovative product for back pain.</p> <p>CEO: Niv Caviar          Email: <a href="mailto:ncaviar@pdctransact.com">ncaviar@pdctransact.com</a>          Phone: (949) 489-0339          Website: <a href="http://www.spineovations.com">http://www.spineovations.com</a></p>
<b>Snorx / Zelegent</b>	<p>Manufacturer of what we plan to be the world's most elegant, least-invasive surgical snoring intervention tool</p> <p>CEO: Alex Arrow          Email: <a href="mailto:alex@zelegent.com">alex@zelegent.com</a>          Phone: 650-763-8282          Website: <a href="http://www.zelegent.com">http://www.zelegent.com</a></p>

<p><b>Traceability</b></p>	<p>Modernization of Radio-Pharmaceutical Production. a very simple and inexpensive automated solution replacing all manual QC procedures and complex instruments.</p> <p>CEO: Arkadij Elizarov          Email: <a href="mailto:elizarov@traceabilityinc.com">elizarov@traceabilityinc.com</a>          Phone: 310-988-0463          Website: <a href="http://www.traceabilityinc.com">http://www.traceabilityinc.com</a></p>
<p><b>Velox</b></p>	<p>Defining the future of rapid and sensitive tests, IC3D to be used to target antibiotic resistant mechanisms before antibiotics are ever prescribed finding a Needle in a Haystack with IC3D.</p> <p>CEO: Christopher Heylman          Email: <a href="mailto:chrisheyman.velox@gmail.com">chrisheyman.velox@gmail.com</a>          Phone: (619) 512-3285</p>
<p><b>Yolia Health</b></p>	<p>Combination of personalized contact lenses, specially formulated eye drops and integrating specification software for treatment of low to moderate vision problems (presbyopia, myopia, hyperopia and astigmatism)</p> <p>CEO: Alberto Osio          Email: <a href="mailto:alosio@osiocorp.com">alosio@osiocorp.com</a>          Phone: 619.202.4810          Website: <a href="http://www.yolia.com">http://www.yolia.com</a></p>
